

# WE ARE #FORESTPROUD

We are a cutting-edge communications effort powered by the Society of American Foresters. We connect the dots between forests, forest management, and markets and products — and highlight the important role we collectively play in delivering forest-based solutions for today and tomorrow, and in shaping the future of our climate, for people and planet.

Help us keep the conversation going. Thanks for doing your part.

# WE BELIEVE

**Forests** provide powerful **climate solutions**.

**Forest management** is how we **deliver** those solutions.

**Forest markets and products** are how we **sustain** those solutions.

**You** are essential to **scale** these solutions, for today and tomorrow.

# HOW CAN YOU SUPPORT?

1. **Follow Us** @forestproud and use #forestproud hashtag
2. **Donate** or **Support** and make an impact statement.
3. **Take Action** and support forest climate solution projects, programs, and/or products.
